## **Webinar: Mental Health Parity and Addiction Equity Act**

Please join the St. Louis CEBS Chapter for our fall program on Wednesday, October 6th from 8:00 to 9:00 am via Zoom. Rich Glass, an attorney from Mercer, will provide an update on the Mental Health Parity and Addiction Equity Act (MHPAEA), which was amended by the Consolidated Appropriations Act of 2021 (CAA) to include a new requirement: a detailed, written comparative analysis of the plan's nonquantitative treatment limits (NQTLs). DOL audits and document requests are already underway, and response timeframes are typically tight (such as 7-14 days). Given the participant notice and public shaming aspects of the CAA NQTL provisions, group health plan sponsors should make the MHPAEA compliance a top priority and take steps as soon as possible to ensure their plans have a written NQTL comparative analysis.
